THE HONGKONG DISPENSARY,

ESTABLISHED A.D. 1841.

Hongkong, 21st July, 1892.

The Hongkong Telegraph.

HONGKONG, TUESDAY, SEPTEMBER 6, 1892.

THE ENCOURAGEMENT OF CRIME.

The Hongkong Police Magistrates have occasionally to award punishment to stray Chinese who have been picked up at night by constables and charged with "being abroad without light or pass," a nominal fine or a brief incarceration being the usual prescription. Sometimes the prisoner may be an ex-convict, lurking about in search of plunder; sometimes an innocent house-coolie, hurrying to fetch a doctor. It is all the same.

But down west, in the heart of Chinatown, everybody may go and come at all hours, without light or pass, in immunity. The streets are almost as much frequented after nine o'clock as before. The Chinese laugh at the law, and sneer at the guardians of it. "English law cannot show itself in Chinatown!"

Perhaps it is too much to say that the recent revolting murders would have been prevented by a rigid enforcement of the light-and-pass regulation; but there is no doubt that the present laxity of the police in this respect is harmful. The West Point victim had no lamp; nor, probably, had his assailant. There may not be much in the suggestion; but it certainly seems worth the attention of Major-General Gordon.

TELEGRAMS.

GLADSTONE AND LABOUCHERE.

LONDON, August 26th.

Mr. Gladstone has written to Mr. Labouchere, taking upon himself the responsibility of the exclusion of Mr. Labouchere from the Cabinet. [Reuter blamed it on the poor old Queen before!]

RUSSIA IN THE PAMIRS.

The *Times*, in a leading article, says that the conflict between the Russians and Afghans in the Pamirs imperatively requires a prompt and exhaustive examination by the British Government, which will doubtless ask St. Petersburg for an explanation.

RE-ELECTION OF MR. MORLEY.

Mr. John Morley has been re-elected for Newcastle, defeating Mr. Ralli.

CHOLERA EXTENDING.

Cholera has made its appearance in Glasgow, Middlesborough, Bremen, Kiel, and Rotterdam and is rapidly extending. At Hamburg the mortality is alarming.

THE CHOLERA.

When in bad luck, never go for help to people who have been lavish in offers when you needed nothing.

CLARA.—Do you see how the shape of this gown could be improved? Maud—You might get some other girl to wear it.

MR. JUSTICE GOLDNEY, of Penang, will leave that port on the 11th inst. to take up his new position as Chief Justice of Trinidad.

MRS. HJONKS says there are only two plants she can remember the botanical names of—the *avocado borealis* and the *delirium tremens*.

WE are informed by the agents (Messrs. Dodwell, Cavill & Co.) that the "Mogul" liner *Argyll* left Singapore yesterday for this port, and is due on or about the 11th inst.

"I am happy to say," remarked the preacher, "that the Sheriff died resigned."

"I dispute that statement," said the editor. "He died, but he'll be hanged if he resigned."

It is reported that the anchor lost by one of Columbus's ships on the night of August 2nd, 1493, off the island of Trinidad, has been recently unearthed on that island.

THE Duke of Edinburgh is writing an opera; the libretto is said to be by Carmen Sylva, Queen of Rumania, and when finished it will be given at the Coburg Court Theatre.

THE Superintendent of the P. & O. S. N. Co. informs us that the steamship *Rorinda*, with the next English mail, left Singapore for this port at 4 p.m. yesterday, and is expected about 8 a.m. on the 10th inst.

Miss Giddy—Certainly, if there's no third party present.

WE are informed by the agents (Messrs. Shaw & Co.) that the "Union" Line steamer *Colonia*, from Antwerp, Hamburg and Straits, left Singapore for this port on Monday afternoon, and is due on or about the 11th inst.

A SINGAPORE contemporary says that the measures taken by the Government of India to develop the resources of Mergul are likely to lead to the formation of a strong syndicate under Ah Qai, a Chinese millionaire from the Straits, who have applied for a grant of the whole of the bearing area comprising the Malayan township. It is proposed to work this concession with Chinese miners from the Straits.

AMONG the Ainos, the hairy folk that live in Yezo, the north island of Japan, babies have a rather rough upbringing. When they are about a month old they are often left for hours in their cradles, which are hung from the roof of the hut in a warm place near the fire. As the mothers are fond of their babies, this treatment is not meant to be cruel. The Ainos women think it part of baby's upbringing to let it lie and cry heartily. "It must have its say," they will tell you, "just like talkative men and women," and so it yells until it becomes tired of the exercise, and by-and-by ceases to howl when left alone. There is something Irish in this notion, as expressed by the Rev. John Batchelor, that "the best way to keep a child quiet is to let it cry as much as it will." Aino cradles are made of wood, and are like the rockers of a big rocking-chair or the runners of a sleigh. They are about three feet long and twenty inches wide. From "Little Folks" Magazine for August.

M. DE CASPARY, French consul at Singapore, left for home by the M. M. Co's steamer *Salasie* on August 30th.

Bobby—Is Ananias dead?

Fond Parent—Oh, yes, my son, a long time ago.

Bobby—Did it make "Brownie" feel lonely?

THE Singapore *Free Press* of August 30th says that nothing has as yet been heard of the steamship *Myrmidon*, bound from Liverpool to Singapore, and which is already several days overdue.

WE have been asked to state that it was Leo Corp. Powell of the Royal Engineers who won the soldiers' race at the recent V.R.C. aquatic sports, not Sergt. Scott as previously reported. Scott was the name given to our reporter by one of the V.R.C. stewards.

WHILST H.M.S. *Mercury* was leaving Singapore for torpedo practice on August 26th the lost Whitehead torpedo in the harbour, and left two of her boats behind to look for it. As the missing article had not been found when the last mail left, it is surmised that a stray whale had swallowed it.

THE Stanley Opera Company will appear at the Theatre Royal City Hall, on Thursday night in Gilbert and Sullivan's opera house "The Mountbancs." As this work has never been performed in Hongkong, the Ainos, who had a brilliant success in London, are certain to attract a large audience.

THE Indo-China Co's steamer *Kulsang*, Captain Jackson, which arrived at Singapore on August 26th, reported that she had picked up an automatic whistling buoy painted white with word *Hollandia* in black letters on it in lat. 14° 45' N, long 122° 48' E. The buoy was landed at Jardine's Wharf.

"I do not like the smell of whisky," said the editor to the reporter on whose breath he detected a little of the aroma of the still.

"Neither do I," was the unexpected reply.

"Wouldn't it be splendid if we could get rid of the smell in some way so that our friends would not perceive it?"

At last a contract, one Chao Atong of No. 5 Arsenal Street, has set to work in earnest to run up structures on the foundations of the new Central Market. At present they are only masonry for the ground floor, and others but before the end of the present century he will, it is said, have erected quite an elegant building there.

Rev. Doan's Doubles.—Martha, hereafter do not allow the children sugar to put on their cheeks. Treacle is just as good and much cheaper.

Mrs. D. D.—Yes, dear.

Rev. D. D.—You may go now, and let me finish my sermon on the Beauty of Generosity.

THE cost of the American Revolution, of course, only be estimated, since no authentic data are available for an exact statement. According to the best information obtainable, its cost to the American colonies was about \$135,000,000, and to England and the expense of the war exceeded \$500,000,000, besides the loss of 50,000 soldiers and the American colonies.

THE steamer *Flintshire*, which had been on a run with coals to a Dutch estate on the African coast opposite Zanzibar, arrived at Singapore on 21st inst. on Saturday, August 27th. Captain Gill reported that the vessel sprang a leak on the 21st August, at 3 p.m. in lat. 3° 40' N, long. 87° 18' E, and the vessel arrived in port with 4 ft. 5 in. of water in her main hold, and proceeded to the Tanjong Pagar Dock for repairs.

ANOTHER mystery of the post-office! The *China Mail* of Aug. 1st did not reach Japan until the 5th, though other Hongkong papers of Aug. 16th reached that happy land on the 3rd. It would be interesting to learn where this copy of the *Mail* has been calving. It was properly addressed and there was no sign of account for its long delay, except the mere fact that it was the *Smith*, and could not come up to time because it isn't built that way.

EXPERIMENTS made recently with malleable cast-iron by the Admiralty of Sebastopol, Russia, have been interesting. A trial bar, heated to red heat, was folded and unfolded several times in succession, and at the end only a scarcely perceptible crack showed. Another bar that was folded cold under hydraulic pressure broke after taking a persistent curve. A third bar, heated to cherry red, could be forged and lengthened into strips. Its tensile strength was almost equal to that of ordinary Siemens-Martin steel.

SAYS the *Siam Free Press*:—The steamship *Madusa* left eight passengers at Keelantan on the trip up to Bangkok. They were proceeding to the Temoi mine. Mr. Warren, the new Engineer-in-chief, hopes that very soon the machinery will be at the mine and in working order. Threats are indulged in that in case the mine is not opened, he will be obliged to resign.

Wink—That's a P. & O. captain.

Jinx—And who's the insignificant fellow he's patronizing?

Wink—That's only a Director of the Company!

MR. W. N. BEAUCLEER, First Secretary of the British Legation at Peking, and Miss Hart, daughter of the Inspector-General of the Chinese Imperial Maritime Customs, who are to be married shortly, will spend their honeymoon in the Western Hills.

MRS. DONNET, a Parisian actress of some fame, has recently recovered damages in a suit against a bicycle manufacturer, who advertised his bicycle by means of a picture of the actress. He neither asked her permission nor sent her a single line of bicycle.

WANG PENG-TSAO, the new Chinese Minister to Japan, was a passenger the other day by the steamship *Hainan* from Tientsin to Shanghai. His Excellency was at one time Secretary of Legation at Berlin and afterwards *Chargé d'Affaires* at Tokyo; he is also a Haikian man.

ATTEMPTS are being made in Tientsin to start another newspaper, a daily; but, remarks the *Shanghai Mercury*, while we wish it success, past experience and the present limited scope of the Northern port induce us to believe that this undertaking, like the Gordon Hall, will prove too big for the place.

Little Elsie—Why-ee! How funny!

Mamma—What is it, dear?

Elsie—I was thinking of what you read last night about the wild people in Africa-beating on their tom-toms till they could be heard for miles.

Mamma—The word is "tom-tom," deary.

What did you think it meant?

Elsie—I thought it meant their stomachs.

THE *Shanghai Mercury* states that the wedding of Herr Von Brandt, German Minister to Peking, and Miss Heard, daughter of Mr. Augustine Heard, the U.S. Minister to Korea, has been postponed till the spring in consequence of the refusal of the German Government to sanction the marriage of the Minister. Hymen, remarks our contemporary, is sadly bound with red tape in Germany.

THE steamship *Asioche*, which is undelivered to leave for Hongkong at daylight on Thursday, will take down to the river the Charbonnages Co. about six hundred Chinese coolies. This looks like business, and within the next few weeks we may expect to see those valuable coal deposits realise to some substantial extent the anticipations of the Company's persevering promoters and supporters.

THE Toronto *Empire* prints a table showing the additions which have been made to British territory since 1885. They total up as follows: In Asia, 278,700 square miles and 5,000,000 people (estimated); in South Africa, 1,633,400 square miles and 14,379,000 people; in Australasia, 77,300 square miles and 158,000 people—a total in the seven years of 4,089,100 square miles and 19,987,000 people.

OUR Shanghai contemporary *Der Orientalische Lloyd* says that the steamers *Hyphanta* and *Polyhymnia*, which have been purchased for the China coasting trade, have been re-named *Peking* and *Namgyang* respectively, and will leave Hamburg for China in the course of the present month. The former will be commanded on the coast by Captain F. Schulz, late commander of the steamer *Peking*, and the latter by Captain Köhler, at present in command of the same company's steamer *Ningbo*.

THE reason Sir John Walshe and his family have not removed to the Western Hills as usual this year, according to the *Shanghai Mercury*, because of the refusal of the Chinese to let him have a temple there—which he has been accustomed to rent for years past. It is reserved now for the President of the Chinese Consulate, who is moving out; with all his summer paraphernalia, and it is expected that the Empress Dowager will pay him a visit there. The old lady is getting tired of being mewed up in the palace and wants to see the outside world again.

OUR Yokohama contemporary the *Japan Gazette* is on its last legs. At a meeting of the shareholders of the Yokohama Printing and Publishing Company, Limited, held on the 25th ult., the following resolution was unanimously carried:—"That it has been proved to the satisfaction of the meeting that the Yokohama Printing and Publishing Company, Limited, cannot by reason of its liabilities continue its business and that it is advisable to wind up the same. And that a Liquidator be appointed."

MR. C. W. URE was appointed Liquidator, at a remuneration of 3 per cent on the amount collected by him. It is a pity to see how four daily papers managed to exist for so long in the limited foreign community of Yokohama.

In connection with the repeated raids by the fire-breiter Chalkal into Kurram Valley, the Amir has suggested that the only possible way of maintaining order there is that a British officer with troops should be stationed in the valley. This he considers would be beneficial to both sides, as the Turis, who are under British protection, would be kept in control, and the officer would be able to settle all differences along the frontier.

The Government of India have informed His Highness that an officer with a sufficient escort will be sent to Kurram in October.

The Turis, who have been asking for help, will now find their wishes gratified.

The report of the Political Officer will at the outside be 700 or 800 Sepoys with two mountain guns.

SHOCKING SUICIDE IN YOKOHAMA.

AN OLD HONGKONG RESIDENT CUTS HIS THROAT.
Japan, papers received by the French mail steamer Yarra this morning contain the details of a shocking case of suicide which occurred at No. 43, The Bluff, Yokohama, on the morning of August 24th, the victim of his own insanity being Mr. Drummond Anderson, an employee of Messrs. Jardine, Matheson & Co., who for many years has been a resident in the Far East, and ten years ago, when he was not employed at the China Sugar Refinery, East Point.

The facts of the case, as elicited at the Coroner's inquest, are said to be the extreme, Lloel J. C. Anderson, son of the deceased, was going downstairs about 8.20 o'clock on the morning in question when he heard a noise in his father's room; he went in and found his father sitting in his bath, with his throat cut. Medical attendance was obtained without delay, but all Dr. Wheeler's exertions were of no avail, as the unfortunate man never recovered consciousness and expired at 10.45. The razor, with which the wound had been inflicted, was found in the bottom of the bath. After hearing all the evidence, the Coroner, Mr. R. de B. Lazard, briefly addressed the jury, who returned their verdict as follows:

"We find that Drummond Anderson died between the hours of 8 and 9 o'clock in the forenoon of August 24th, 1892, at No. 43, The Bluff, Yokohama, from a wound caused by a razor; that said wound was inflicted by his own hand while in a condition of temporary insanity."

Mr. Drummond Anderson had been nearly twenty years in the Far East, and at one time was a clerk in the Agra Bank at Yokohama with Mr. Thomas Jackson, the "loss" ex-Chief Manager of the Hongkong and Shanghai Banking Corporation. Ten years ago he was in the employ of the China Sugar Refinery in Hongkong and was afterwards at Swatow for Messrs. Jardine, Matheson & Co., whence he proceeded to Yokohama, where he has been for some years past. He was a widower and leaves two children.

RUDYARD KIPPLING ON THE HONGKONG CLUB.

In his second letter to the Times from Yokohama Kipling says:—

"All things considered, there are only two kinds of men in the world—those that stay at home and those that do not. The second are the most interesting. Some day a man will bet himself and write about the breed in a book called 'The Book of the Overseas Club,' for it is the club house all the way from Aden to Yokohama that the life of the outside men is best seen and their talk best heard. A strong family likeness runs through both buildings and members, and a large and careless hospitality is the note. There is always the same open-door, high-ceiled house, with maitling on the floor; the same come-and-go of dark-skinned servants, and the same assembly of men talking horse or business, in raiment that would fatally scotch a London committee, among files of newspapers from a fortnight to five weeks old. The life of the Outside Men includes plenty of sunshine and as much air as may be stirring. In the stately Hongkong Club house, which is to the further west the Bengal Club is to the nearer East, you meet much the same gathering, minus the rolling speculators and plus men whose talk is of tea, silk, shirtings, and Shanghai points. The speech of the Outside Men at this point becomes feverishly mixed with pidgin English and local Chinese terms, 'rounded with corrupt Portuguese.'"

This is good—in a miscellaneous way. It is beautiful having collapsed, disturbances are still reported on its Eastern border in the direction of Buth. The Sinjyans, who have returned from Persian territory, are reported to be giving trouble about Farrah on the Kandahar front.
